PROJECTS

Find Teammate — Web-Development

A simple yet powerful website to reduce the struggles of finding teammates while building a project. The user will be able to find project partners that best fit their requirements by viewing the profiles of various people registered on the platform and sorting them according to their experience level.

YouTubeX — Web-Development

A powerful web-application that allows you to download YouTube videos in various video-quality options and also provides the service of extracting audio from videos, by just providing the link of the YouTube video.

FLAMES — Web-Development

A childhood fun-game moulded into a website that we used to play to know the future relation with our crush, friends and others by using two names and canceling the letters of FLAMES to obtain the result.

Opinion Matter — Web-Development

A simple yet powerful web-application which will act as a platform to push any of the ideas that hovers in your mind and put it amongst other users so that they can offer their opinion and poll in favor or against the idea and also give suggestions if required.
